### HALL CHINA CO. WILL PURCHASE OLD GOODWIN POTTERY PLANT

Deal for Factory Is Practically Closed Thursday.

### JOBS FOR 150 MEN

Davidson-Stevenson Porcelain Co. Must Seek New Quarters.

Through a deal practically closed Thursday, Robert T. Hall, head of the Hall China company, plans to purchase the old Goodwin pottery, corner of Broadway and East Sixth street. The sale is being made through George Goodwin, member of the Goodwin Pottery company, which has not operated the plant for several years.

The plant, now partly occupied by the Davidson-Stevenson Porcelain company, will be vacated within 90 days, Mr. Hall stated Thursday. It will undergo extensive repairs. Additional buildings probably will be erected. An effort will be made to place the pottery in operation by the first of the year.

The new works will employ about 150 persons and will engage in the manufacture of fireproof china ware. Several specialties in pottery were now contemplated by the Hall China company may be manufactured in the new plant.

The Goodwin Pottery company discontinued the operation of the plant eight years ago, but never dissolved as a corporation. The plant itself was leased to the Davidson-Stevenson Porcelain company in 1913 for the manufacture of porcelain electric fixtures and other specialties. Only a part of the plant has been operated by the lessee and between 50 and 80 men and women are employed.

The Davidson-Stevenson company had not been officially advised of the sale of the plant Thursday, one of the officials declared. No plans for vacating the plant or the location of another works have been considered, it was stated.

The new plant of the Hall China company will be operated jointly with the present works, located on the corner of East Fourth and Walnut streets. The present plant employs about 125 workmen.

### TUMULTY TO CONVEY MESSAGE FOR REPORT FROM PUBLIC GROUP

Opening of Conference is Deferred By Chairman Franklin K. Lane Pending Receipt of Appeal From President--Services of Employers' Group Not Necessary.

#### BULLETIN

WASHINGTON, Oct. 23.—President Wilson himself today declared that the industrial conference which he had called to Washington had come to an end.

The president's decision not to attempt to keep the conference in session was expressed to the employers' group and the public group by Franklin K. Lane, chairman of the ill-fated conference.

WASHINGTON, Oct. 23.—President Wilson this afternoon asked the public group of the industrial conference to continue its work and make a report, it was stated at the white house.

Secretary Tumulty left the white house shortly before 12:30 this afternoon to go to the industrial conference to convey the president's message. Chairman Franklin K. Lane arrived at the conference room at 12:15.

He explained informally that he had been in communication with the white house and that Joseph Tumulty, secretary to President Wilson, was coming to the conference room. He deferred the opening of the conference awaiting Tumulty.

The services of the employers' group will not be necessary, Chairman Lane announced. The president's wishes were expressed by Chairman Lane to the two groups, after a white house conference.

Franklin K. Lane, chairman of the conference, declared it permanently adjourned at 12:43 today.

### Chairman Lane's Ruling Disputed

The ruling of Chairman Lane early in the day that the conference was still in existence was being disputed even by Bernard Baruch, who, as unofficial representative of the white house, exhausted every means of keeping the conference together. "There's no conference," Baruch said. "It's like going into court to present only one side of a case if we try to keep the conference going with labor absent."

Samuel Gompers and Frank K. Morrison are still in Washington, but several members of the labor group left the capital last night.

The future of the industrial conference rests with President Wilson now, it was stated at the white house today. After a meeting with Chairman Lane, Bernard Baruch and Thomas L. Chadbourne, Secretary Tumulty conveyed to the president information of the action taken by the labor group yesterday. Secretary Tumulty also was instructed to inform the president that there is a division of opinion among the remaining members of the conference as to whether the conference should continue in session.

### LABOR GROUP WILL NOT RETURN TO CONFERENCE, SAYS GOMPERS

WASHINGTON, Oct. 23.—The labor group does not intend to return to President Wilson's industrial conference.

### AWAIT WORD ON DEMANDS

The railway shopmen's unions have been voting unanimously for a strike in November it was declared at headquarters here. It was due to the efforts of the shopmen that the decision for the general strike date has come.

WASHINGTON, Oct. 23.—The question of increased wages for railroad workers will be settled by the government before the railroads are returned to their private owners, it was learned at the railroad administration offices today. The board of railway wages and working conditions is now preparing its final report on the demands of railroad workers. It was stated today. This report will be submitted to Director General Hines within two weeks.

PEORIA, Ill., Oct. 23.—One big union in North America, an alliance of the International unions of the United States and Canada and the railroad brotherhoods "to more effectively fight out the life and death struggle of the workers now in progress and impending" is asked of Samuel Gompers and the executive committee of the American Federation of Labor, in a telegram sent to Gompers today by the Illinois State Federation of Labor.

### BLAST OCCURS AT TIME TRAIN WAS TO LEAVE BELLEVERNON

Bomb Exploded Between Tank Cars Near Bellevernon, Pa.

### PLOT IS SUSPECTED

No Serious Damage Results--State Police Investigate.

PITTSBURGH, Oct. 23.—What is believed to have been an attempt to blow up a passenger train filled with work men going to the steel mills at Monaca was made today when a bomb exploded between two tank cars loaded with gasoline on a side-track near the Belle Vernon station at the time when the train was scheduled to leave.

The train was several minutes late and the explosion did no serious damage.

State policemen, who immediately took charge of the case believe that those responsible for the blast thought the tank cars would also blow up. There is no clue to the perpetrators.

Pieces of tube found after the explosion showed it had come from one of the plants of the Pittsburgh Steel Products Company. A piece of paper blown from the bomb proved to be a copy of an I. W. W. paper published in Cleveland last May.

The explosion is thought to be part of a plot to spread terror among workmen in the upper Monongahela valley. Yesterday a passenger in a street car at Belle Vernon was shot in the eye.

## COUNTRY CLUB IS PROPOSED

As a preliminary step toward the formation of a country club, the Fulton farm of 95 acres located near Thompson park has just been purchased by several East Liverpool men.

A preliminary organization to sponsor the project has been formed with C. C. Ashbaugh, J. S. Hilbert, G. R. Thomas, Homer J. Taylor, J. M. Wells and Robert T. Hall, as directors. To secure an expression from prospective members as to the feasibility of the plan the following prospectus was mailed out Wednesday.

"The organization of a country club to be located near East Liverpool, O., has been discussed for some time past and with a view of determining the desirability and feasibility of such an organization it has been determined to ask for the views of those interested.

"What is commonly known as the Fulton farm, situated immediately north of Thompson park has been suggested as a possible site. This farm consists of about ninety-five and sixteen hundredths acres (95.16), and is subject to the legal highways. Both a house and barn are located in this farm and it is thought that the house can be converted into a club house by making certain improvements and additions. The barn will answer as a garage.

"This property is now owned by a number of East Liverpool people, who purchased the same at a total cost of \$14,543.50. The owners of this farm offer to sell the same for country club purposes at the actual cost plus six per cent. interest on the money actually invested therein which cost includes the cost of the land and some few small expenses, such as insurance, deeds.

"This offer to sell will remain open for a period of thirty (30) days from October 10, 1919.

"Two corporations will be organized under the laws of Ohio, one to be a land company and the other a country club. For convenience of reference, the land company is herein referred to as The St. Clair Land Company and the country club as the St. Clair Country Club.

"It is suggested that the farm be conveyed to The St. Clair Land Company, and that the St. Clair Land Company then lease the farm to The St. Clair Country Club for a period of fifteen (15) years at a rental of One Dollar (\$1.00) per year, plus the cost of insurance and all public taxes and assessments, with the privilege on the part of the St. Clair country Club at any time during the lease term of fifteen years, of purchasing said farm for a sum of money sufficient to pay or return to the stockholders in the land company the money actually invested in the St. Clair Land Company by its stockholders.

"If the St. Clair Country Club fails to so purchase said farm during said

fifteen years, then the St. Clair Land company shall be free to dispose of the land in such manner as it sees fit.

"It is proposed that The St. Clair Land Company be incorporated with a capital stock of Fifty Thousand Dollars (\$50,000.00), divided into Five Hundred shares of the par value of One Hundred Dollars (\$100.00) each.

"The entrance or initiation fee to the St. Clair Country Club will probably be One Hundred Dollars (\$100.00) and the due five dollars (\$5.00) per month, or Sixty Dollars (\$60.00) a year, payable quarterly in advance to resident members. Resident members to include those living in East Liverpool, Ohio; Wellsville, Ohio; Newell, W. Va.; Chester Pa; and Midland Pa.

"The initiation fee and dues to non-resident members shall be less in amount than those charged resident members.

"It is further suggested the usual country club rules be adopted by The St. Clair Country Club if the same be organized, and the test of whether such a country club can be organized is properly dependant upon the amount of subscriptions obtainable in the St. Clair Land Company.

"It is understood that the stock subscriptions paid to the St. Clair Land Company will be used in the improvement of the land and buildings and other necessary expense so as to make said farm a suitable country club, but if all of the stock subscriptions so paid to the St. Clair Land Company are not so needed, then a portion thereof may be set aside as a sinking fund to assist in the purchase of the farm by the St. Clair Country Club from The St. Clair Land Company.

"All persons subscribing and paying for not less than One Hundred Dollars (\$100.00) worth of the capital stock of The St. Clair Land Company will not be required to pay the entrance fee to the St. Clair country Club. It is expressly understood that The St. Clair Country Club will not be organized unless all, or substantially all of the capital stock of Fifty Thousand Dollars (\$50,000) of the St. Clair Land Company be subscribed.

## STEEL PLANTS WOULD BE HIT

Strikers Rejoice Over Prospect of Railroad Tie-up.

PITTSBURGH, Oct. 23.—There was much rejoicing at the headquarters of the steel strikers today over the prospective walkout of railroad men in sympathy with them. Only those men who handle the raw products and the output of the mills would be affected, but their quitting would seriously cripple the industry.

The matter was discussed at length by strike organizers last night and there was to be another meeting today. It is likely that the men will be out in a few days.

The ban on strikers' meetings here still stood today despite the bitter fight of counsel to have it lifted. After a full day's hearing the court ruled that Mayor E. V. Rabcock's action in refusing permits was correct and the strikers' petition was refused.

The Grand Canyon of the Colorado river in Arizona is nine miles longer than Switzerland.

## COLUMBUS LEARNS OF VISIT OF KING

COLUMBUS, Oct. 23.—When Columbus awakened this morning, it was learned that King Albert of Belgium and Queen Elizabeth and Prince Leopold had been in Columbus during the night and had remained at the Union station for 14 minutes. About a hundred people found out that the train would halt here and were on hand to greet the hero of Belgium and his son. The queen did not make an appearance. Albert wore a military uniform and shook hands with the admirers who went to the station to greet the royal party.

Governor Cox came from Cincinnati with the royal party. Albert wore a Sam Brown belt and was the picture of health. He thanked the city of Columbus for the relief sent during the war and said he was sorry he could not address citizens of the capital.

of concessions which would lead to negotiations.

Lewis went into conference with Samuel Gompers to make plans for co-operation from the American Federation of Labor during the proposed strike.

WASHINGTON, Oct. 23.—An alliance between the coal miners and the railroad men for co-operative action in nationalizing the coal mines, as well as the railroads, is reported to be in the making. A meeting will be held in Washington tomorrow between John L. Lewis and other officers of the United Mine Workers of America and the presidents of the four railroad brotherhoods for this purpose.

## GRAFT PLOT IN LIQUOR SALES

NEW YORK, Oct. 23.—The arrest of "men higher up" was expected today in a wholesale graft plot by which saloon and cafe owners here are said to have bought immunity to sell whiskey in defiance of the law.

William J. Flynn, chairman of the bureau of investigation of the department of justice, who uncovered the conspiracy, is continuing his investigation.

Five arrests had been made today, three of the men agents of the department of justice. They are: Richard Yancey, Morton P. Allan, William J. Poling, Pasquale Pignuolo and Charles P. McCarver, the last three being government agents. Yancey and McCarver were held in \$5,000 bail, and Pignuolo and Poling in \$2,000. McCarver who was arrested as he was boarding a train for Nashville, Tenn., will be arraigned in federal court today. John Minton, special government prosecutor, declared that enormous sums of money had been paid by liquor dealers for protection.

## STEINFELD IN FOREST CITY

Revenue Collector Attends Conference at Weiss' Office.

Louis Steinfeld, this city, deputy internal revenue collector and Columbiana county, will leave Thursday afternoon for Cleveland where he will attend a conference of deputy collectors of the 18th internal revenue district in the office of Collector Harry H. Weiss, in Cleveland, Friday morning.

The object of the conference, scheduled to begin at 9 o'clock Friday morning, was not disclosed in the brief order received by Deputy Steinfeld. It is likely, however, that plans for the enforcement of the new federal prohibition law in the 18th Ohio revenue district will be outlined by Collector Weiss.

In an order received from the commissioner of internal revenue at Washington, Collector Weiss is given authority to enforce the new law until such time as the department can select supervisors for Ohio and the congressional districts.

The new national measure, prohibiting the sale or traffic in any liquor containing more than one-half of one per cent alcohol, becomes operative October 28, if President Wilson signs the bill.

## STOP DRIVE OF ARSON; CLAIM

YOUNGSTOWN, Oct. 23.—A veritable campaign of arson in the Brier Hill steel district was nipped in the bud early this morning, when police working on a "tip," rounded up six strikers armed with gasoline and waste, after the home of George Hall, a colored steel worker, had been fired. Police had been told that a gang of men had met and plotted to fire the homes of Dominick Lowery and Geo. Hall, and the officers laid in wait for the men.

Lazza Dragovitch, Mike Martodich and Rada Bellich, Servians were the first men arrested. Although heavily armed they offered no resistance. Giuseppe Fazio, Jackie Magapano and Jim Maldo, Italian strikers, offered resistance and Fazio was shot over the heart and probably fatally wounded. Magapano was shot in the back and seriously wounded. Maldo, police say, struck one of their men in the face and escaped but was later arrested in bed at his home.

Charles Brown and Fred Harris, alleged negro strikebreakers, were arrested this morning on Poland avenue when it is said they pulled knives on pickets.

### MAIL CLERK IS BADLY INJURED

Unless it develops that he was injured internally, Harold Kelley, a railway mail clerk, who fell from a moving passenger train at Costonia, a short distance below Toronto Wednesday night, will recover, it was declared Thursday.

Kelley was unable to tell Thursday how the accident occurred. He is now at the residence of George Jones in Commerce street, badly cut and bruised about the head and body.

Kelley was missing from his train when postoffice employees went to the door of the mail car at 5:57 to receive the pouches containing the mail for Toronto. The mail carrier immediately got into communication with officials of the road at Toronto who communicated with residents along the right-of-way below Toronto asking that a search be made for Kelley. It developed that he had been found unconscious near Costonia and had been taken to the home of James Lee.

Kelley was placed aboard an ambulance from Toronto and brought to that place. Later he was put aboard an interurban car and brought to Wellsville to the Jones residence.

When the mail car arrived here, Postmaster Duty took charge of the distribution.

### MAN FINED, BOYS HELD, FOR STEALING APPLES

Edward Grimm of Second street and three local lads whose names were not divulged, were given a hearing in mayor's court Wednesday evening on charges brought against them by A. L. Edmonston of East Liverpool. Edmonston alleged that the boys stole a quantity of apples from trees on the Hammond farm, at the head of Third street.

Edmonston, who owns the farm, appeared against them. Grimm pleaded guilty and was fined \$25 and costs which he paid. The other three youths, being under the age of 18 years, will be turned over to Probation Officer John McShane. Other arrests may follow in the case, it is claimed.

### Urie Infant Funeral.

The body of Wilbert Earl Urie, 15-month-old son of Mr. and Mrs. Wilbert Urie of New Kensington, Pa., who died Monday evening at the family home, arrived here Wednesday afternoon and was taken to the home of her grandparents, Mr. and Mrs. Edward Urie in Broadway. Funeral services were conducted at 2 o'clock Thursday afternoon. Interment was made in Spring Hill cemetery.

### LEVY MAY MEAN NEW ROAD HERE

Sentiment favoring the two mill tax levy, which will provide annually a sum of \$200,000 for five years for new road work in Jefferson county, in Steubenville, Toronto and river districts, indicate that the construction of a modern roadway from Steubenville through to Wellsville, East Liverpool and other points is a possibility within the next few years. Talks in favor of the levy were made Wednesday at a Steubenville chamber of commerce meeting by prominent county officials.

It was stated that the revenue derived from the levy will be spent on construction, reconstruction and the repairing of various Jefferson county highways. It is the intention of the

Jefferson county commissioners, according to statements, to place the roadway between Steubenville and Toronto in first class shape, this to be among the first items on the road-work campaign. If the road between Toronto and Wellsville is also repaired and the Columbiana county commissioners succeed in repairing the Wellsville-East Liverpool road, it is declared that the highway from Steu-

The two-mill tax levy money, it was pointed out, will go only to improvement work on county roads only and not on roads constructed by the state highway department, which are maintained by other funds.

## ARMISTICE DAY.

Last Nov. 11 was celebrated in every American community, and probably in every home, with joy and thanksgiving. The celebration was informal and spontaneous. It was recognized as the greatest day of the war—because it ended the war. The task taken up as a hard duty was finished. The fighting had stopped. The fighters would come home. There was no waiting anywhere for formal pronouncement. Everybody knew that the war was over, and rejoiced accordingly.

That day ought to be fixed forever in our national life. The day when war was formally declared and the day when peace shall be formally proclaimed are less important. They are official, but have less meaning. Nov. 11, Armistice Day, the day when the Germans gave up their long, bloody effort to conquer the world and when American arms were recognized as having saved civilization, when the tide turned definitely from war to peace, when the hearts of 4,000,000 American men turned with one accord toward home, and the home folk in confident expectation welcomed them back in love and triumph—that is a day worthy of celebration alongside of Independence Day.

Congress has power to recognize the day and give it an official place on the American calendar. It will be established sooner or later, with or without the action of congress. It will be all the finer and better if that body recognizes the fitness of things, and acts in time to insure a great public celebration this year.

## ORGANIZED CAPITAL, ORGANIZED LABOR.

The New York World, which remains true to form in lambasting arrogant capital and arrogant labor with equal vigor, finds it astonishing that the industrial conference at Washington, dealing with the most important matter before the American public today, should have so much difficulty in recognizing the principle of collective bargaining. This, as the World reminds the conference, is "a fundamental of industry in every other civilized nation." It continues:

"Unless we can have whole-hearted willingness on both sides to accept organization and representation as a right, it is idle to look for progress. Capital is highly organized and nobody questions the credentials of its agents. It is only when labor is unionized and asks to be heard through authorized delegates that we are warned of the perils of outside dictation. In such unfair and illogical contentions there is disquieting evidence of the ingrained bournism of American capital, which in other respects is intelligent and daring."

This is legitimate criticism. It is true, as the World adds, that "from the utterances of some of the representatives of employers and public at Washington it would appear that nothing has happened in the industrial world since a blacksmith or wagon-maker or weaver hired a helper and indentured an apprentice."

We have capital well organized. We have labor partly organized and making rapid progress toward complete organization. Both forms of organization are natural and perhaps inevitable. Both are consistent with democracy—one implies the other, else there would be special rights for a special class. Nothing is to be gained, in the long run, by fighting either. The gain lies in recognizing these natural processes of evolution, and using them for public good, being content with trying to correct the errors of each.

## DOCTORS' FEES.

Physicians of Spokane have decided to increase their fees 50 to 100 per cent. A letter of advice will cost \$3 to \$25, a consultation over the telephone will cost \$2, and a visit outside the city limits will take \$6 from the patient's purse.

There is one thing which the doctors have overlooked, and that is charging the friend and neighbor who buttonholes his physician on the street, leads him to the edge of the sidewalk, details his symptoms and gets a little curbstone medical advice free on his way down town.

Undoubtedly the first thing to be heard as doctors generally begin to raise their fees will be a howl. But calmer consideration should inform the public that there is no class of men more poorly paid on the average than the doctors.

No unskilled laborer would put in the night at his job for any such sum as has for generations gone down on the family doctor's books after a nerve-racking vigil beside a sick baby or one of its elders. No man of any other business, except the preacher, after devoting grilling hours to the job where he was paid would devote a similar amount of time to working where he was needed but could hope for no reward.

Other business experts applied to by letter charge exorbitant fees for the advice given from the wells of their experience, but the doctor puts his time, his eyesight, his expensive education at the service of the patient gone to a summer resort and writhing home about a headache, and as a usual thing never charges a cent.

If, pressed like all the rest of the world for money enough to pay for the necessities of life, the doctors decide to end the polite grafting which most of them have endured for years in silence, nobody can blame them.

The announcement that future congresses will spend \$4,000,000,000 a year instead of the old \$1,000,000,000 merely bores the public. Billions don't mean much any more.

At last it has been discovered what a profiteer is. He is the man that the man you talk to buys his goods from.

"Let us get together and work," Premier Nitti tells the Italian people. And stop fuming about Fiume?

Speaking of signs of the times, lamp this headline: "Farmer Flies to Chicago to Order Cider Press."

That proposed mandate for Turkey wouldn't be so bad if there weren't so many foreigners there.

## NEW YORK LETTER

NEW YORK, Oct. 23.—

All of we married men

Know just what happens

When we take our wives

To select a hat.

Mine went with me

The other afternoon,

And 24 hours later,

When we began to speak

To each other again,

We both decided

To do our own selecting

In the future;

But it wasn't our fault

It was those crazy names,

That they give hats.

The first one I tried on

Was called "The Polo,"

And I looked in the glass

Like a fellow will,

And everything,

And turned to my wife

And she began to laugh

And I jerked it off,

And tried on: "The Piping Rock,"

And all you could see

Was a set of ears,

And even the clerk,

Had to hide a smile.

The next was "The Aristocrat."

But it wasn't for me

So I tried on: "The Hunter."

And so on down the list

Until I came to: "Nobby Boy."

And it was jaunty.

But my wife kept laughing,

And I got peevish,

And the madder I got,

The more she laughed.

And every hat I tried on

Caused fresh laughter,

Until all the clerks

And the customers

Came around to watch me,

And they laughed, too,

And I stamped out of the store,

Fussing with my wife

And still she laughed

And the people on the street

Kept looking at me

And smiling too

And I finally looked

In a window mirror

And saw I had put on

A new high silk hat

Belonging to the store

When I rushed out.

## A Shampoo Worth Trying

It is not necessary to shampoo your hair so frequently if it is entirely and properly cleansed each time by the use of a really good shampoo. The easiest to use and quickest drying shampoo that we can recommend to our readers is one that brings out all the natural beauty of the hair and may be enjoyed at very little expense, by dissolving a teaspoonful of cantharox, which can be obtained from any drug store, in a cup of hot water. This, enough so it is easily to apply it to the hair instead of just to the top of the head. This, when rubbed into the scalp and onto every strand of hair, chemically dissolves all impurities. It is very soothing and cooling in its action, as well as beneficial to both scalp and hair. After rinsing out the lather so created, you will find the scalp is fresh, clean and free from dandruff, while the hair dries quickly and evenly, developing a bright luster and a soft fluffiness that makes it seem very heavy.

## SOCIETY OF LAWN ROLLERS ROLL IN FOG TO REDUCE

SAN FRANCISCO, Cal.—California fog and lawn rolling will reduce fat. That, at least, is the belief today of the Society of Lawn Rollers that each morn as the sun peeps over the Golden Gate and pushes through the early fog roll hither and yon on the green sward of Golden Gate park.

Five corpulent ladies started the society. On the long stretches of green, preferably starting on the crest of a gentle hill, the ladies start their rolling race. Skirts hooped tightly at the bottom, they gain a fair momentum. The rolling and the early rising, they say, will reduce the corpulence.

Park attendants say that only night watchmen and squirrels so far have witnessed any of the rollers in action.

SO MANY FONG SINGS JUDGE  
FORCED TO NUMBER 'EM

SACRAMENTO, Cal. — So many Fong Sings appeared to charges of violation of the federal narcotic laws that Federal Judge William Van Fleet, of the federal court here, was forced to place them in numbered chairs, such as "Fong Sing No. 1, Fong Sing No. 2," etc., down the line. Each was pleading on the other's toes, so to speak, and all the attorneys and all the king's men had a terrible time parting them again.

Forty-two Chinese faced the charge of selling narcotics without a license.

MAY INCREASE  
SUGAR PRICE

Advance from nine to ten cents per pound in the wholesale price of sugar just announced by the U. S. Sugar Equalization board is expected to cause a boost in the retail cost of the commodity to East Liverpool consumers within a short time, it was intimated Thursday.

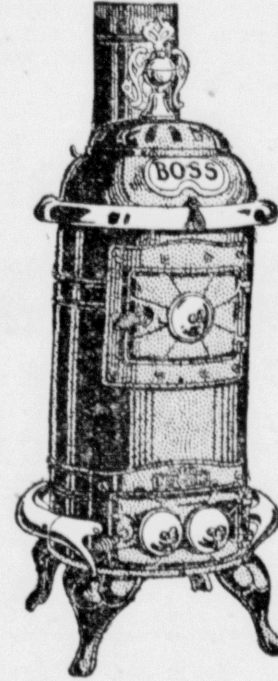

Action of the Equalization board in increasing the cost of sugar to the wholesaler has been taken to prevent abnormal advance in the price of sugar in the face of the existing shortage of the commodity. Beet sugar refiners to whom consumers in the Ohio valley must now look for their future sugar needs, have been withholding the new sugar crop from the market until the price situation becomes more stabilized.

If refiners agree to the ten-cent fair price for sugar, the new beet sugar crop will be marketed at once, immediately relieving the present stringency. Retailers have been allowed to charge 11 cents per pound for sugar under the old established fair prices. The new retail price is not assumed by the sugar equalization board to be greater than the wholesale advance.

## MAY NOT MOVE STEEL PLANT

Announcement was made Thursday that the officials of the Weirton Steel company at Weirton are re-considering their decision to dismantle the Clarksburg, W. Va., plant and removing it to Weirton, the home of the main works. This announcement came, following a visit of Clarksburg business men and merchants to Weirton on Tuesday of this week.

The Clarksburg committee headed by Lucius Hogg, representative of the Chamber of Commerce, told of reports reaching Clarksburg concerning the proposed removal and that it was reported there work would be started at once in dismantling the plant.

Clarksburg is greatly alarmed over the talk of removal. The Weirton Steel company's plant there is the largest industry in the town, employing more than 1000 workmen and has an average weekly payroll of more than \$50,000. The plant was built in 1912 and was operated for several years by the Phillips Sheet and Tin Plate company and merged into the Weirton Steel company about eight years ago.

Although no definite action appears to have yet been taken in regard to the removal of the steel plant, Weirton and the entire upper Ohio valley is centering interest upon the project. The coming of another big steel plant to this district means much and this locality is awaiting definite word on the proposed removal with as much intensity as Clarksburg is awaiting word on whether they will retain or lose the plant.

## AWAIT WORD ON "RED" LITERATURE

Hancock county authorities are anxiously awaiting word from the federal authorities at Washington, to whom was turned over a large quantity of alleged literature which was seized by the county authorities and Weirton police in a round-up of alleged "Reds" in the little steel town of Weirton, about three weeks ago.

Included in the literature, which it is said told of a proposed "reign of terror" which the "Reds" planned to inaugurate in the United States during the coming Christmas holidays, were seven red flags. All of the literature was printed in foreign languages conveying the impression that the agitators of the movement meant to enlist foreigners solely in their proposed campaign.

## START TOMORROW AND KEEP IT UP EVERY MORNING

Get into the Habit of Drinking a Glass of Hot Water Before Breakfast.

Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles according to hot water enthusiasts.

There are vast numbers of men and women who, immediately upon rising in the morning, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day, become food for the millions of bacteria which infect the bowels, the quick result is poisons and toxins which are then absorbed into the blood, causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and badly the next, but who simply can not get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation.

## JAMES B. TOPE, AGED 64, DIES SUDDENLY

James B. Tope, aged 64, widely known throughout Hancock county, died suddenly at his home near Pughtown last Wednesday night. Death was due to heart trouble.

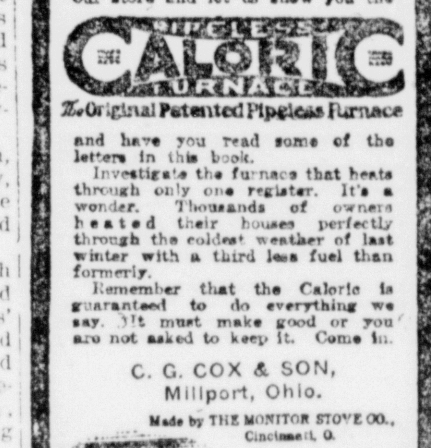

Mr. Tope, according to members of his family had been ill with heart trouble for the last week. Late last night he left the house and went directly to the barn. When he did not return within a reasonable hour his wife and son instituted a search and found his lifeless body in a small shed. His body was still warm and a physician who was summoned announced that Mr. Tope had been dead only a few minutes, when discovered.

The deceased was born and reared in Hancock county. He was a son of

## FEAR STRIKE PURCHASE COAL

Local coal dealers have been swamped with orders for coal during the last few days as a result of the recent announcement of the coal miners union that a general country-wide strike would become effective on November 1, unless their demands for an increase in wages were met.

Chester has been very fortunate in receiving shipments of coal and many residents fearing a shortage of the fuel this fall, had their winter's supply laid in while coal was plentiful. However those who neglected to make preparations for the winter are seeking a supply. Local dealers have more orders than they can take care of at the present time.

Approximately 54,000 miners in West Virginia will answer the coal strike on Nov. 1. C. F. Kenney, president of Dist. 17, United Mine Workers of America, has announced.

The wagon operated mines in this vicinity will not be affected by the strike, it is declared.

## RESENT CANCELLING OF HIGH GRID GAME

New Cumberland high school football enthusiasts are up in arms over the action of the management of the Steubenville high school in cancelling the game with the Hancock county seat gridlers.

New Cumberland lost to the Steubenville high school aggregation in the early part of the season on the Steubenville grounds. The score was close. The Steubenville eleven was to have played a return game at New Cumberland in November but cancelled and now the Hancock county team is charging the Steubenville team as being afraid to play "off their own back yard."

Steubenville's actions in cancelling leaves an open date for the New Cumberland team.

Squeezing and pinching out blackheads make the pores large and cause irritation; then, too, after they have become hard you cannot get all of them out. Blackheads are caused by accumulations of dust and dirt clogging the pores and the skin and there is only one safe and sure way and one that never fails to get rid of them—a simple way, too—that is to dissolve them. Just get from any drug store about two ounces of powdered nioxin, 50 cents worth—sprinkle a little on a hot wet sponge—rub over the blackheads briskly for a few seconds—wash off and you'll be surprised to see that every blackhead has disappeared, and the skin will be left soft and the pores in their natural condition. Those who are troubled with these unsightly blemishes should try this simple method.

**ALL OUT—**I do not wonder that you are disgusted with the hair tonic commonly sold. Did it ever occur to you that you need a real hair grower instead of a hair tonic? Here is a formula which has a wonderful effect upon the cell-growth of hair, and results can be seen in the sprouting of new hairs, in the vigorous growth and lengthening of hair, and in its added lustre and softness. Here is the formula: To half a pint of bay rum add half a pint of water (or else you may use a full pint of witch-hazel if you wish) and to this add one ounce of beta-quinol, which will cost no more than fifty cents at the drug store.

Mrs. T. C. G.—Cheer up! You'll be one of the happiest women in the world in a few days. I can promise you that because your dream of a beautiful complexion will surely come true if you do as I say. Thousands have done it; you can do it. It never fails. Stop using all the prepared complexion creams sold in the stores and make your own this way, in a few moments. Mix one ounce of zintone, 50 cents worth, and two tablespoonsful of glycerine in a pint of water. It is simple and wonderful. Every spot will vanish and leave your skin like that of the fairest of the fair.

COLUMBUS, Oct. 23. — How long will the legislature be in session when it reconvenes in December?

This is the question which has been asked on many sides and none of those who are "in the know" seem to be able to answer. The time is set at any place between two weeks and four months, with a recess during the holidays.

Many have the mistaken idea that the legislature adjourns until December when in fact it recesses until that time.

If 75 per cent of the mouldrunners and battosut in potteries in the East Liverpool district sign petitions being circulated through the plants Thursday signifying their willingness to affiliate with a trade union, steps will be taken at once to apply for admission into the National Brotherhood of Operative Potters, it was announced Thursday.

Decision to seek an expression from the 500 or more members of the two trades employed in this district was reached at a second meeting of mouldrunners and battosut Tuesday night in the Old Opera House building, East Sixth street. Another meeting will be held next Monday night to survey the petitions and decide upon a definite course of procedure.

At the first meeting of the two trades last week, Thomas Ball was elected president of the temporary organization, Harry Bennett secretary and Dewey Bennett assistant secretary.

## GRANDS READY TO SHEAR CUBS

Savage, Bock and Smith Sign  
to Play with Sullivan's Team  
In Remaining Games of Sea-  
son.

Although the Grands are confident of annexing a victory when they go against the strong Alliance Cubs at West End park next Sunday afternoon Captain Joe Sullivan intends to overlook not a single thing that will go towards strengthening his club. It will be the first home game of the season for the local team, which has already experienced two cancellations of games here. Newell and the Steubenville Shamrocks both failed to play here as originally scheduled by Manager Callahan.

pep and life into his team was taken when Sullivan signed Mike Savage, Bill Bock and Jack Smith, two of their former members of the Irish-town Indians. All three players have agreed to finish the season with the Grands. Savage is a backfield man, while Smith and Bock are classy performers at guard or tackle. The addition of these players will mean much to the success of the Grands in future games.

Manager Mainwaring, of the Cubs, says that his team has won three games and lost one so far this season, having defeated teams from Salem, Canton and Warren Athletics. All his players are in first class shape for the game here Sunday, he said, and he expects them to duplicate their performance in the last three games, which have been victories.

Captain Sullivan has called practice for Thursday and Friday night.

## SPORTING GOSSIP

Boxing phenomena are exploding with great frequency. In the wake of the downfall of Al Roberts came the knockout of Jimmy Hill of Australia in Boston. Hill, who is the featherweight champion of the Antipodes, was stopped in the sixth round by Benny Valger, who had beaten Frankie Brown in Newark only the night before. Hill was under the management of H. E. O'Sullivan, who once managed Les Darcy. The little Australian was preceded by glowing reports of his prowess as a knockout artist and stories of his having been forced to take on lightweights in order to get matches. These reports made boxers tight shy of Hill, and O'Sullivan had the very devil of a time getting him a match. Now Hill is sorry that he did not, as he had threatened, sail for Australia. Valger floored his man in the second round and sent him to sleep with a terrific right to the jaw four rounds later.

The victory accentuates Valger's formidability and the fact that if Johnny Kilbane intends to remain in the boxing game he must meet Valger. If Kilbane does not choose to defend his title against Valger he must resign and permit of open competition for the featherweight laurels. Valger, by the way, has been referred to from time to time by his overzealous manager as the French Bantam weight champion. Valger does not now, and never did, hold any French title. And he is not a bantamweight. We are told that he could just about make 127 pounds, as he has been growing fast. Valger came here from France some years ago and took up boxing as an amateur at the Educational Alliance on the East Side. He became quite clever, though devoid of a punch, and was induced to become a professional. He did hold some amateur titles, but as for a French championship, that's something else again. The practice of claiming titles for boxers who do not hold them has become obsolete, and in this particular case should be stopped because it never does a boxer any good.

Rumors current in Canton to the effect that Oliphant, big Army half-back and All-American man, had signed a contract to play with the Massillon Tigers during the 1919 season went to the rocks Tuesday when Business Manager Ralph Hay, of the Bulldogs, received a telegram from Oliphant, which stated that he had not affixed his name to a Massillon contract.

From what can be gathered, four clubs in this "neck of the woods" have been dickering for the former Army back but as yet Oliphant has not signed a contract with any club.

The Canton management had not been dickering for Oliphant, and just why the big fellow wired Hay to the effect that he had not signed with Massillon is something that Hay can't explain. However, it is thought that Oliphant would like to play with Canton this season, and that he wired to let the Bulldog management know that he was still a free agent.

In case Hay should attempt to secure the services of Oliphant for the season and should succeed in his efforts the Bulldogs would then have the greatest backfield ever to represent a professional team here. Oliphant was a star with the Army for four years. He made trouble for every team that ever lined up against the Army and was hailed from coast to coast as one of the greatest backfield men in the country.

Oliphant is a big fellow, weighing more than 175 pounds, but is exceptionally fast. He is a whirl with it smashing the line, and is just as good at end running. Walter Camp picked him on his All-American team, and in doing so, said that Oliphant was one of the greatest players football has as yet produced.

Joe Beckett, English heavyweight, will meet the French star, George Carpentier, in a twenty-round bout at London on December 4. Promoter Cochran has just announced. Nothing but illness can prevent the match, the promoter said. The winner of the bout will meet Jack Dempsey for the championship of the world, according to tentative agreements which are said to have been concluded by Jack Kearns, manager of the world champion.

## RYAN LOOKS TO BE COMING STAR

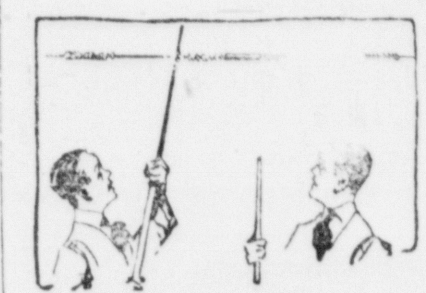

CANTON, Oct. 23.—Impressed with the showing made Saturday night by Billy Ryan former Cincinnati welterweight, now making Canton his home against Milburn Saylor, veteran Indianapolis glovester, Matchmaker Mike McKinney is going to match the local boy up for another bout here in the near future.

The McKinney club, of which McKinney is matchmaker, cannot go wrong in taking a step of this kind, for Ryan won for himself Saturday evening a wide circle of admirers who will be glad to see him in action again.

Canton fandom is already talking of Ryan as the logical contender for the welterweight crown, now held by Champion Jack Britton. But Britton will not be Ryan's next opponent. McKinney feels that the local boy is too young and too inexperienced to be pitted against a veteran like Britton at this time. However, Ryan may get a chance at Britton before the blue birds return in the spring.

Ryan is just a lad, scarcely out of his teens, but nonetheless he carries a wallop that would do justice to a middleweight. And Ryan hits just as hard with his left as he hits with his right. This was evident Saturday night when he floored Saylor five times in less than three rounds.

On one occasion he floored Saylor with a right to the stomach and on another occasion he floored him with a left to the jaw. Ryan's ability to hit with either hand—and hard with both—his speed, ring generalship and youth gives him all the earmarks

"Clean Sport For Regular Fellows"

## HOW ROUGH THEY ARE AND THEY DO TREAT HELIOTROPE AWFULLY!

NEW CASTLE, Oct. 23.—How would football look to a young lady who has never seen a game? It was in New Castle had never witnessed a game and she was escorted to Cascade park in this city on Saturday afternoon.

Here are some of her impressions as she wrote them, after the game:

"My first impression of the game was that a regular free-for-all fight, with the pigskin merely as an excuse for it all. Such wild scrambling and tussling, pulling and jerking, I never saw before in all my life. Every one seemed to have a spite at the man with the ball, who evidently had not sense enough to drop it and run. Instead he hugged it up with both arms, while all the others chased him all over the field. When he stumbled and fell, the whole mob piled on him unmercifully. I looked about anxiously on all sides in hopes that a blue-coated officer of the law would interfere with such open maltreatment.

And No One Was Killed

"A prize fight wherein only two persons took part would seem tame to this mad piling up of humanity. I watched each play, with fear and trembling, fully expecting to see at any time three or four killed outright.

"But, when the first quarter ended and no serious accidents had occurred I commenced to breathe easier but still didn't think much of the game.

"Some of the things I failed to understand, was why one of the players twirled his arms about so, and how he always managed to land on top, when they all piled up on the unlucky man with the ball. Also how did the little man playing quarter back on our local team, keep from under some of the big feet of some of those enormous heavyweights on the opposing team? It was most miraculous, and beyond comprehension. I think men weighing over three hundred pounds would be barred from the team as they would spoil the general appearance of a team, and are too dangerous. Imagine having something like that fall on you, intentionally, too.

"The tackling dummy at high school should be rechristened, for from what I saw of tackling, it's no way to treat a lady. I understand they call it Heliotrope."

## WINS ODD WALKING WAGER

PETERSBOUROUGH, Eng.—Absolute Vellum, aged sixty-two at Crawlford, famous for its abbeys, has performed a feat of endurance by walking continuously to and fro across the market place, 25 yards wide, from seven in the morning until three in the afternoon dressed in khaki.

He won a wager of a shilling and a pint of beer per hour with food. He crossed the market place over 2,000 times.

of a corner, and it wouldn't surprise Canton fight fans to see him lift the welterweight crown from Britton some day this winter.

Just who McKinney will match the local boy up with is not known. And McKinney isn't making any special effort to secure Ryan an opponent. The Canton boy left Sunday for Cincinnati and will remain in the Queen City until Tuesday evening. Once he gets back to Canton, he will start training for his next bout which will not be more than two weeks off at the very most.

Whether or not McKinney will consider the challenge made by Al Doty, local welterweight is not known. Doty, before the Ryan-Saylor mill at the auditorium Saturday night, issued a challenge to meet the winner of the bout. Doty is scheduled for a bout on November 10 and 15 so it is doubtful whether these two local boys will hook up for sometime yet if they meet at all.

SAN DIEGO, Cal., Oct. 23.—The concrete shipbuilding team here looms up as a classy minor league club.

It recently defeated the Los Angeles Coast leaguers in regular array by a count of 5 to 4 after eleven innings of mixing. Having won the city championship, the concrete workers invited the Coast league runners-up for a tilt while Vernon, having denied the Angels the right to play St. Paul for the lesser world series glory, was engaged with the middle westerners.

## FARMER HAS NARROW ESCAPE FROM MAD BULL

WASHINGTON, Pa.—John Williams, a farmer, had a remarkable escape from death or injury in a battle with an infuriated bull. Williams rode into the field on a horse and carried a pitchfork. Charging with head down the bull struck the horse and hurled it over backward and Williams was pinned under the struggling animal. The bull centered its attention on the horse, and Williams was given a chance to reach an apple tree. Continuing to charge the horse, the bull rolled it over and over, and in a final effort tossed the horse over a high fence.

## BOXERS WILL HELP ENTERTAIN

Chief of Police McDermott and Geo. Crowley, of Ceramic Club, Negotiating for First-class Bouts.

Not the least of the interesting features in connection with the joint homecoming celebration in honor of the discharged service men, who have returned to their homes here and the annual Halloween festivities, will be the series of boxing bouts to be staged the evening of October 31, under the supervision of Chief of Police Hugh McDermott and George Crowley, manager of the Ceramic Athletic club of East Liverpool.

The bouts, it is said, will be staged on a specially constructed platform to be placed in Broadway, between the new high school building and the Croxall building. The upper portion of Broadway and the two sections of Fourth street, converging at this point, form an amphitheater which will be capable of accommodating hundreds of people.

It is the intention of the promoters to stage a series of first-class matches, which will include local and out-of-town talent. Owing to the fact that arrangements have not been fully completed to announce the bouts yet as to the participants, Crowley and McDermott are dickering with a first-rate performer of the lightweight class to meet a local swat artist in the main go. Several interesting preliminaries featuring East Liverpool boys will add to the entertainment.

## WEAVER ELEVEN IS ORGANIZED

The former West End Marines football team counted in years past as one of the leading contenders for Ohio valley gridiron honors, and the Weaver All Stars have combined, it was announced Thursday, to form an independent eleven to be called the Weavers, and which will enter the race for the championship honors of the city.

All players are men with experience and the resulting team, after getting under way, is expected to make a mark in Ohio valley football. Frank Coleman has accepted a job as coach of the squad and will have

his gridders out for the initial practice Thursday and Friday evenings of this week. Owing to the fact that organization has just taken place, the management of the team has been unable to book any games. Teams in the district are asked to take notice those desiring games to address C. O. Weaver Sixth street.

The following players are called out for practice Pollock Broadbent, W. Kinsey, E. Hutchinson, A. Coleman, Gerace, Haney, Hunselman, Merchant Mountford, Mundy, Bailey, Pickel, C. Golding, Mayers, McConnell, and Jim Bloor.

Mr. Shumaker served seven years with the Y. M. C. A. in Bombay, India while Mr. Stanley has been associated with the Y. M. C. A. in Kaiseng, China for five years. ## BE A GENTLEMAN, WARNS DOUGHBOYS' NEWSPAPER

COBLENZ.—The American News, the daily published for the soldiers of the American Army of Occupation, publishes this gentle editorial reminder:

"Some of the American soldiers continue to claim that it is difficult to distinguish between an American lady and a German lady. Candidly, we

don't see why this should cause any worry. If you act as a gentleman it doesn't make any difference if the lady is American, French, Belgian or German. Just be sure you are acting as a gentleman and the nationality of the lady needn't bother you. Isn't it so?"

The first person cremated in America was Colonel Henry Laurens at Charleston, S. C., in 1792.

**CITY PREPARED TO COPE WITH ANY EPIDEMIC**  
**Red Cross Nurse and School Nurse Will Co-operate In Work.**  
**READY TO FIGHT "FLU"**  
**Miss Lillian Willshaw on Duty for Red Cross Chapter.**

A recurrence of the dread Spanish influenza epidemic this winter will find East Liverpool better prepared to combat the plague than it was a year ago.

Under the peacetime program of the home service-civilian relief, a trained Red Cross nurse has been placed on duty in this city, while the school nurse, professionally skilled in all diseases, will co-operate to check the spread of the epidemic in event of its reappearance.

Miss Lillian Willshaw, Red Cross nurse, had wide experience with the Spanish influenza epidemic in the army cantonments in the east during her services with the army. Enlisting for whatever service she might be needed during the war, Miss Willshaw was sent from Cleveland to one of the big eastern cantonments. She was assigned active duty in the base hospital and had hundreds of khaki-clad "flu" patients under her care.

Both Miss Willshaw and Dr. Anna Taylor, the latter public school nurse, stand ready to enter the breach in the event the "flu" reappears this fall. Miss Willshaw, as general Red Cross nurse, will work throughout the city at large, while Dr. Taylor will fight to keep the epidemic out of the schools.

While fears of a recurrence of the "flu" have been greatly minimized, state health authorities are taking every precaution to guard against its reappearance. Under a scheme tentatively worked out by the Ohio board of health, every county health board, recently organized in compliance with the new Hughes health act, has been instructed to appoint one of its members as head of the county anti-flu organization.

This member is to work in close co-operation with the health district advisory council of the county, each of whose members—a mayor or a township trustee chairman—is chairman of the present board of health of his municipality or township.

Through this arrangement the unofficial organization will be linked up with the present boards of health, placing it in a position to secure united action against an epidemic throughout the county and enabling it to obtain emergency appropriations from the boards of health if necessary.

If the opening of the new year, when health authority will be transferred from the present township and municipal boards to the new county district boards, should find the state in the midst of an influenza epidemic, the preventive program would proceed without the interruption which would result if the county boards were left out of the present program.

The health department is also endeavoring, in co-operation with the United States public health service, to line up 200 Ohio physicians for influenza work in the state if a need for their services develops. Letters of inquiry regarding their willingness to undertake such work have been issued to a large number of doctors.

**Rheumatism**  
A Home Cure Given by One Who Had It.

In the spring of 1893 I was attacked by Muscular and Inflammatory Rheumatism. I suffered as only those who have it know, for over three years. I tried remedy after remedy and doctor after doctor, but such relief as I received was only temporary. Finally, I found a remedy that cured me completely, and it has never returned. I have given it to a number who were terribly afflicted and even bedridden with Rheumatism, and it effected a cure in every case.

I want every sufferer from any form of rheumatic trouble to try this marvelous healing power. Don't send a cent; simply mail your name and address and I will send it free to try. After you have used it and it has proven itself to be that long-looked-for means of curing your Rheumatism, you may send the price of it, one dollar, but, understand, I do not want your money unless you are perfectly satisfied to send it. Isn't that fair? Why suffer any longer when positive relief is thus offered you free? Don't delay. Write today.
